RULING ON ENTITLEMENT¹

On November 30, 2020, Pamela Havice filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”), and an amended petition on May 11, 2021. Petitioner alleges that she received an influenza vaccine on October 29, 2019 and suffered a shoulder injury related to vaccine administration (“SIRVA”) thereafter. Petition at 1. Petitioner further alleges the vaccine was administered within the United States, that she suffered the residual effects of this injury for more than six months, and that there has been no award or settlement for his vaccine injuries. Petition at 12. The case was assigned to the Special Processing Unit of the Office of Special Masters.

If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all section references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2012).

On October 20, 2022, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent has concluded that Petitioner's claim meets the Table criteria for a SIRVA. *Id.* at 6. Respondent further agrees that Petitioner has met the jurisdictional requirements of the Vaccine Act. *Id.* at 6.

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
